

Image Appearance Modeling

Mark D. Fairchild & Garrett M. Johnson
RIT Munsell Color Science Laboratory
www.cis.rit.edu/mcsl

Outline

- Background
 - iCAM
- DV Extension

Color Appearance

- Viewing-Conditions Independent
- Spatially Localized

Image Appearance & Quality

- IQ (Thresholds & Magnitudes)
- Combine with Color Appearance

- Get "Image Appearance"

Moving Image Appearance & Quality

- Temporal Adaptation & Filtering

The iCAM Framework

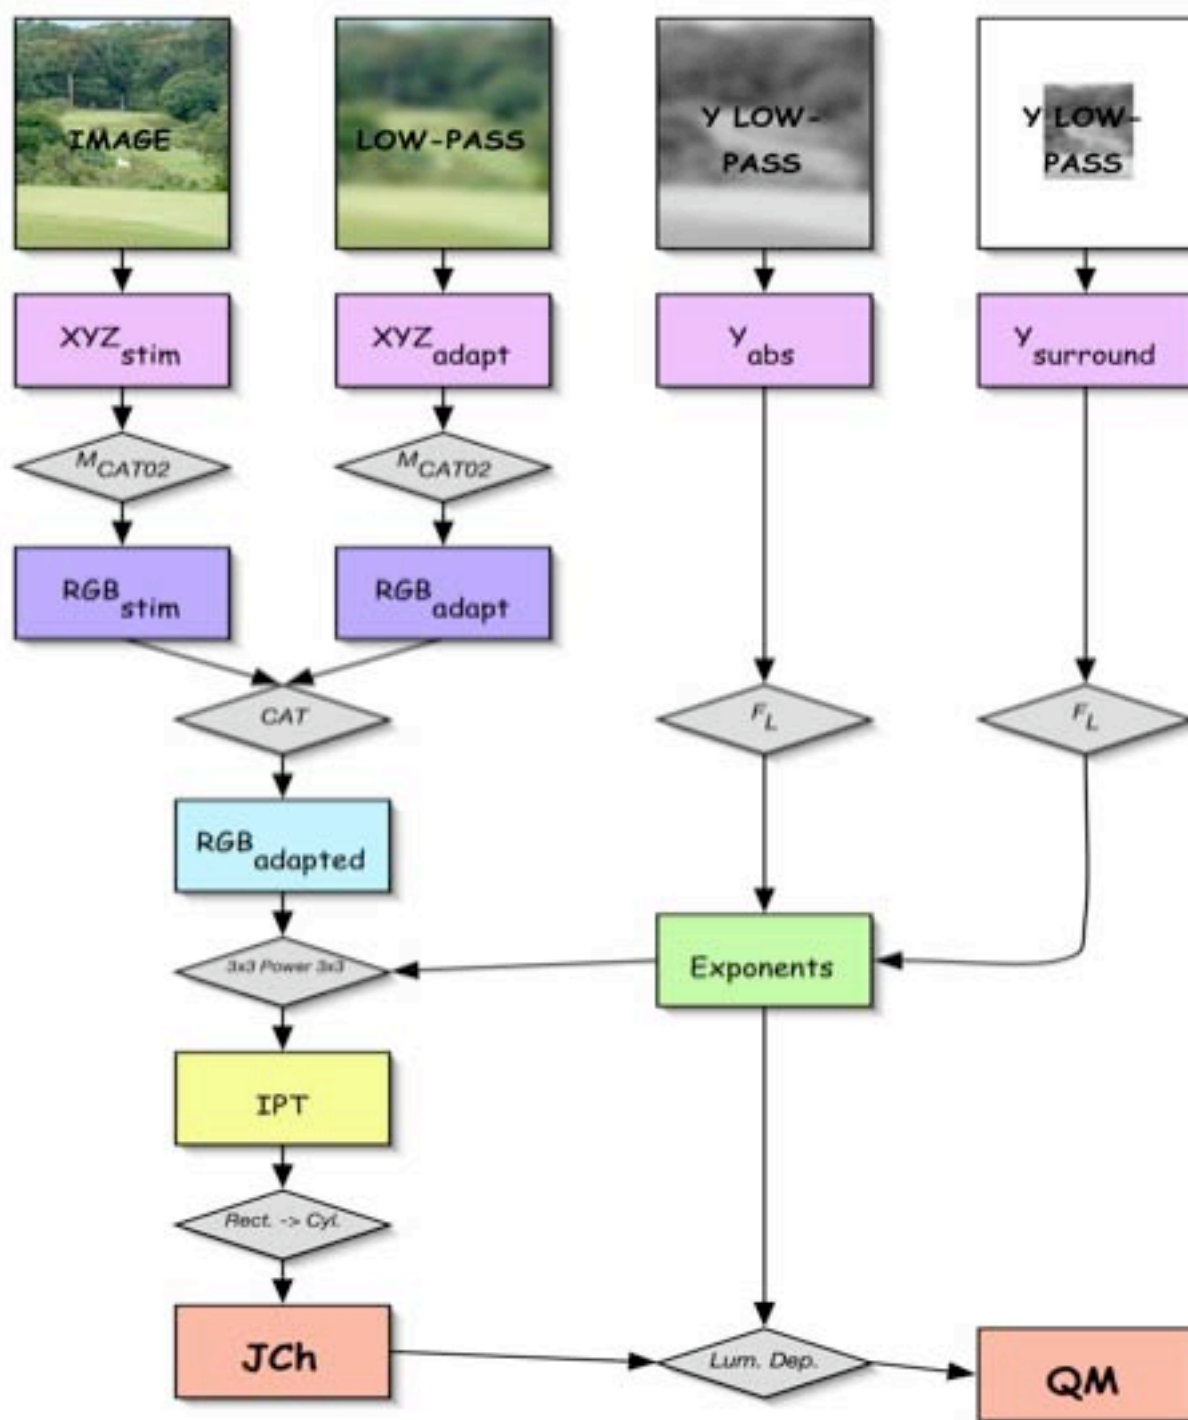

Image Appearance Applications (Rendering)

Luminance
Adaptation
Only

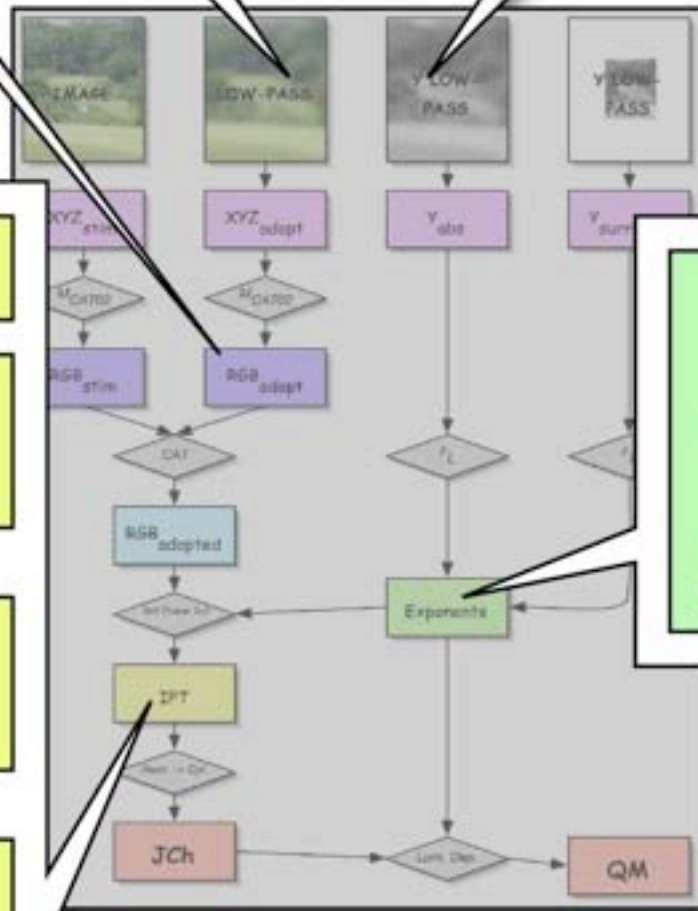

Gaussian Low-Pass
2-sigma = 1/4 Image Width
~4 Degrees

INVERSE FOR DISPLAY

IPT to RGB
(fixed exponent)

RGB to XYZ
(fixed adaptation)

XYZ to Display RGB
(characterization)

CIECAM02 F_L Function
Norm. to 1.0 at 1000 cd/m²
Clipped to Min. of 0.3
Multiplied by IPT Exp. (0.43)

**Image
Quality
Applications
(Difference Perceptibility)**

RGB to IPT (linear)

Spatial Filtering

Localization & Local Contrast

IPT (linear) to RGB

Power Functions

RGB (nonlinear) to IPT

$\Delta I \quad \Delta P \quad \Delta T$

$\Delta I_m = \text{Euclidean Sum}$

Statistics: Mean,
Median, Percentiles,
Variance, etc.

Digital Video Rendering

Temporal Integrator
Based on Previous 10 Sec.
Psychophysically Derived

Gaussian Low Pass
2-sigma = 1/4 Image Width
~4 Degrees

Luminance
Adaptation
Only

INVERSE FOR DISPLAY

IPT to RGB
(fixed exponent)

RGB to XYZ
(fixed adaptation)

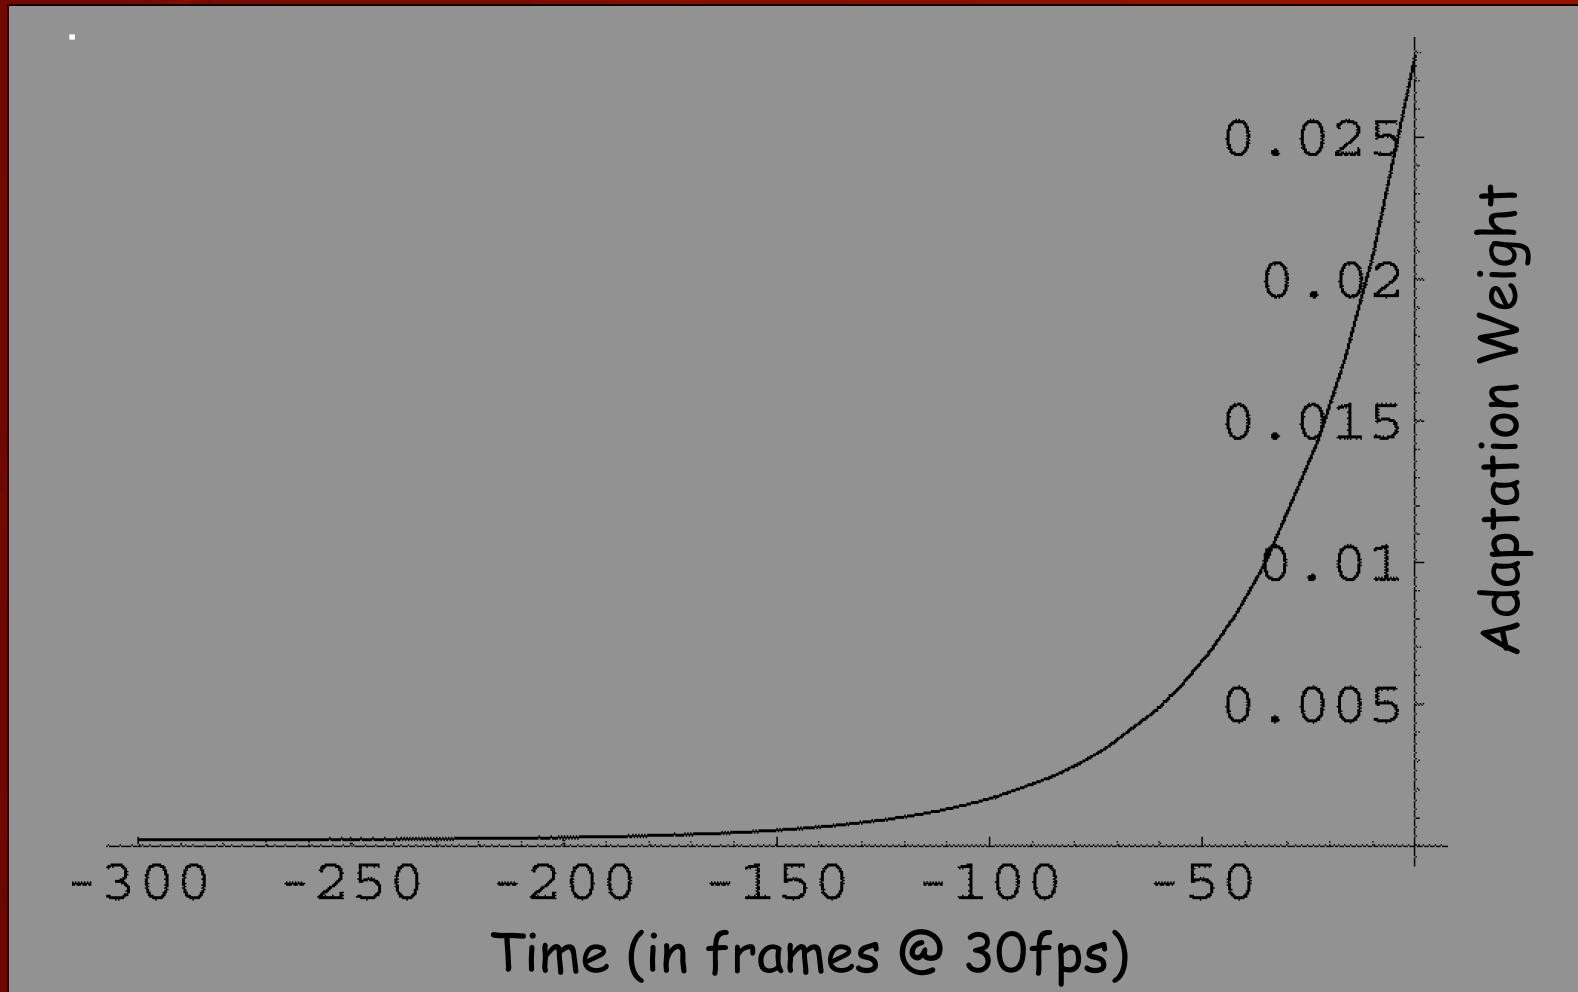

XYZ to Display RGB
(characterization)

CIECAM02 F_L Function
Norm. to 1.0 at 1000 cd/m²
Clipped to Min. of 0.3
Multiplied by IPT Exp. (0.43)

Rendered
frame-by-
frame with
temporally
integrated
adaptation
stimulus.

Temporal Integrator

Fairchild & Reniff (1995)

Example Frames

Linear HDR
Image Data

Luminance
Adaptation
Image

Frame-by-Frame
Exposure
Compensation

iCAM
Rendering

Example Video Sequence

Conclusions

- **Ingredients**
 - Color Appearance Model
 - Spatial Adaptation & Filtering Models
 - Temporal Adaptation & Filtering Models
 - Image Difference Metrics
- **Results**
 - Still & Video Rendering Algorithms
 - Still & Video Quality Metrics

Thank You.
